

Installation Guide for DCS Flash Updater V1.0 Software

Installation Instructions

1. Double click the “DCS_M9_Updater” file to open the Installation Setup.

2. Click “Install”. The DCS Flash Updater V1.0 will be installed and ready to use.

3. Select correct COM Port. Connect RS232 cable to RS232 connector on the back of the DCS unit. Browse and select the appropriate “.abs” firmware file. Click Start to begin Download.
